*EDITORIAL NOTE:
INTRODUCTION TO SCIENTIFIC ABSTRACTS,
E-ISNR, 2004*

The most recent and exciting scientific information is often presented at conferences long before it makes its way through the peer review process into print. As a compromise between timeliness and thorough review, we have chosen to print these abstracts of scientific papers presented at ISNR conferences. We begin this section with the ISNR Student Scholarship abstracts and the ISNR Research Fund supported project abstracts presented at the 12th Annual ISNR conference in Ft. Lauderdale, Florida. We conclude this section with selected abstracts of scientific papers presented at the second meeting of the E-ISNR chapter. This meeting was held conjointly with the Biofeedback Foundation of Europe (BFE) in Winterthur, Switzerland during February 2004.
